TCI Assured Portal Information for Entry

All travelers to the Turks & Caicos are required to obtain pre-travel authorisation via the TCI Assured portal. Persons without authorisation will not be permitted to board a flight to the Turks & Caicos.

TCI Assured is an online portal where all international travelers (both visitors and residents) will be required to obtain certification before traveling to the Turks & Caicos. It also applies to the mandatory quality assurance scheme for hotels, villas, restaurants, and transportation vehicles. All businesses must be TCI Assured and display certification sticker.

The TCI Assured pre-authorization portal will require travelers to submit the following information:

- All visitors 16 years of age and over must be fully-vaccinated
- A negative COVID-19 PCR test result. The test must be taken within 3 days of arrival in the TCI. Children under the age of 10 are excluded from this requirement.
- Insurance which covers COVID-19 medical costs and full hospitalization, doctor' visits, prescriptions and air ambulance.
- A completed online health screening questionnaire.
